## If you don't know what to write in a bug report...

Posted by MariaD - 2008/07/06 22:02

---

Submit your bug reports into our BugTracker forum.

For a bug report:

- What did you do?
- What did you expect to happen?
- What actually happened?
- How do you feel about it?

For an idea you have:

- What would you like to see?
- Who will enjoy it?
- Do you know other sites implementing it?

Help other beta testers with writer's block - add some helpful questions in comments, please!

Maybe it would be reasonable to add templates like this to a Bugtracker, which is under development now? I think it can be helpful to beginners who want to become a professional testers =)

You can submit it at the BugTracker forum. I just edited the top message to include this link, too, so others can see it easily.
