
NaturalMath icons: Artists wanted!

Posted by pandaphant - 2009/07/19 13:05

The icons on NaturalMath may look nice, but they aren't obviously math related. So what we need is some pretty, math icons.

So, go ahead and comment if your up to drawing about 5-10 math icons. Keep in mind that these will be very small, about 48 by 48 pixels.

Find people involved/connected to Natural Math or Math 2.0 via chat: Search Chat history with keywords Math 2.0 or NaturalMath to find chats with good conversation about the topic and store it in a document.
